SR72 Poached Deer – Information Sought

In March 2011 Conservation Officers located the carcass of a doe deer lying along SR72, north of the city of Fremont. The doe had been shot once behind the front shoulder with a high powered rifle. The deer was killed within one mile of the Mill Meadow Reservoir junction. It is believed that this occurred during the first week of March.

Every deer lost to a poacher is a theft from ethical sportsmen. Poachers rob everyone who enjoy the outdoors. Please assist Utah conservation officers in the ongoing effort to protect your wildlife. Information pertaining to this poached deer or any illegal wildlife related activity should be reported to the UTiP hotline and 800-662-3337.

Information leading to the prosecution of a wildlife violator could result in a monetary reward or reward permit, as applicable. Confidentiality requests will be honored.

Utah Mule Deer need your help. If you have any information regarding this poaching incident, or another, please contact the UTIP Hotline at 800-662-3337
